

# SMART WAX

**Maintenance wax for floors. Provides hardness and natural shine to surfaces. Its formula allows enrichment and penetration into treated soils. Especially recommended for Smart Base and Smart Liso microcement floors.**

## PROPERTIES

- Provides hardness.
- Provides long-lasting, natural shine.
- Easy to apply.
- Effective at low doses.

## CONSUMPTION

By hand 0.25 mL/m<sup>2</sup>

## PRESENTATION

It is presented in 5L containers.

## TECHNICAL DATA

<b>Nature</b>	From natural waxes and additives
<b>Appearance</b>	Opaque Liquid
<b>Color</b>	White
<b>Solids</b>	2,25%
<b>pH</b>	6,5 - 7,5
<b>Viscosity</b>	10,22 s (Copa Ford 4)
<b>Density</b>	1.01 ± 0.005 g/mL
<b>Application temperature</b>	Room temperature

## PREPARATION

### Add a small dose in water:

20-25 mL per 7 liters of water (hand application with sponge, mop)

25-100 mL per 10 liters of water (machine application)  
Apply one coat of Smart Wax to the surface of the microcement already sealed, cured and completely clean, using Smart Cleaner.

Please note that the waxing treatment is not permanent. It is necessary to repeat the process from time to time.

**Important:** before performing the waxing treatment, wait at least two weeks from the application of Smart Varnish to guarantee its correct curing and thus avoid damaging it.

## TOOL CLEANING

---

Tools are washed with water immediately after use. Once hardened, the material can only be removed by mechanical means.

## STORAGE CONDITIONS

---

The product must be stored in its original closed container and protected from the weather at temperatures between 10°C and 30°C, in a dry and well ventilated place, away from heat sources and direct sunlight. The time of use is 1 year from the date of manufacture, properly stored.

## SPECIAL PRECAUTIONS

---

In case of contact with the eyes, clean with plenty of water for 15 minutes.

In case of contact with eyes, clean with plenty of water. Do not ingest. In case of ingestion do not provoke vomiting and seek medical attention immediately.

### The following measures are recommended:

- Good ventilation.
- Protective glasses to avoid splashes.
- Rubber gloves.

Empty containers must be disposed of in accordance with the legal regulations in force. To prevent the product from dry or thicken by closing the lid after each use.

This product is not toxic, dangerous or flammable, under normal handling conditions. This product does not contain any harmful substances which, under the current regulation, entails taking any additional measures with regard to its labelling.

The product must not be used for purposes other than those specified, without first having written instructions from its use. It is always the user's responsibility to take the appropriate measures in order to comply with the requirements established in the legislation.

The Safety Data Sheets of the product are at the disposal of the professional.
